Subject: LMC mobile production van

Dan as you know I had a brief meeting with Steve Altieri regarding the LMC production van approved by the Board of Control. We discussed VOM purchasing the vehicle and providing regular maintenance reimbursed by LMC with PEG (capital) money. You have all the State contract information which, if we issue the PO, will reduce the anticipated cost for LMC by almost \$11,000. The TOM will develop a mechanism for LMC to utilize their fuel system. This email continues the conversation and provides more information for the August 26 work session and resolution for the BOT consideration. Thx
