Information for Registered Pesticide Agencies

All Registered Pesticide Agencies must maintain up-to-date information with the DEC. You must notify the DEC at the Central Office in Albany, in writing, if any of the following changes have been made to your agency:

- New address - DEC must be notified of any address changes
- Change in certified applicators - DEC must be notified if you add or remove certified applicators or technicians. If you are adding an applicator or technician please provide their name, certification number, expiration date and category(s). Note: Applicators or technicians must be employees of the agency paid wages etc., not contracted employees.
- Change in categories of operation - DEC must be notified if you wish to add a category of operation to your Agency Registration. If you are adding a new category to the agency, provide the name, certification number and expiration date of the person certified in that category.
- Stops using pesticides – If your agency stops making pesticide applications and no longer needs to be registered you need to notify the DEC in writing and return the registration certificate.

You can notify the DEC of any changes by sending an email to pestmgt@dec.ny.gov, sending a fax to 518-402-9024, or by mailing a letter to the above address.

Decals

Each vehicle (including trailers) that transports pesticides and each piece of ride-on pesticide application equipment is required to display two Registered Pesticide Business decals. The decals should be placed on opposite sides of each vehicle or piece of equipment. Decals should not be placed on small pieces of pesticide application equipment such as handheld or backpack sprayers or on carrying cases, they are for use on vehicles and ride-on application equipment only.

Ordering New Decals

If you need additional decals for new vehicles or equipment, please send an email to pestmgt@dec.ny.gov or a fax to 518-402-9024 with your agency name, agency registration number, and the number of new vehicles or pieces of motorized equipment that need decals.

THANK YOU FOR YOUR COOPERATION
