

# U.S. Route 1 Complete Streets

## Project Description

The New York State Department of Transportation (NYSDOT) is evaluating the U.S. Route 1 corridor for opportunities to provide Complete Streets enhancements. A Complete Street is a roadway planned and designed to consider the safe, convenient access and mobility of roadway users of all ages and abilities, including pedestrians, bicyclists, public transportation riders, and motorists. This project will investigate recommendations to enhance safety, as well as pedestrian and bicycle facilities along U.S. Route 1. The project limits are between Dillon Road and Hornidge Road.

## Conceptual Complete Streets Strategies

\*The typical sections are conceptual and represent typical complete street elements

## Existing Conditions

- Travel Lanes - 9.5 ft. wide
- Parking Lanes - 8 ft. wide
- Sidewalks/Utility Strip/Snow Storage Space - 10 ft. wide
- Bicyclists Share the Travel Lane
- Curb to Curb Width - 54 ft. (narrowest width)
- Aerial Utilities Adjacent to Parking Lane
- Closed Drainage
- Real Estate Considerations

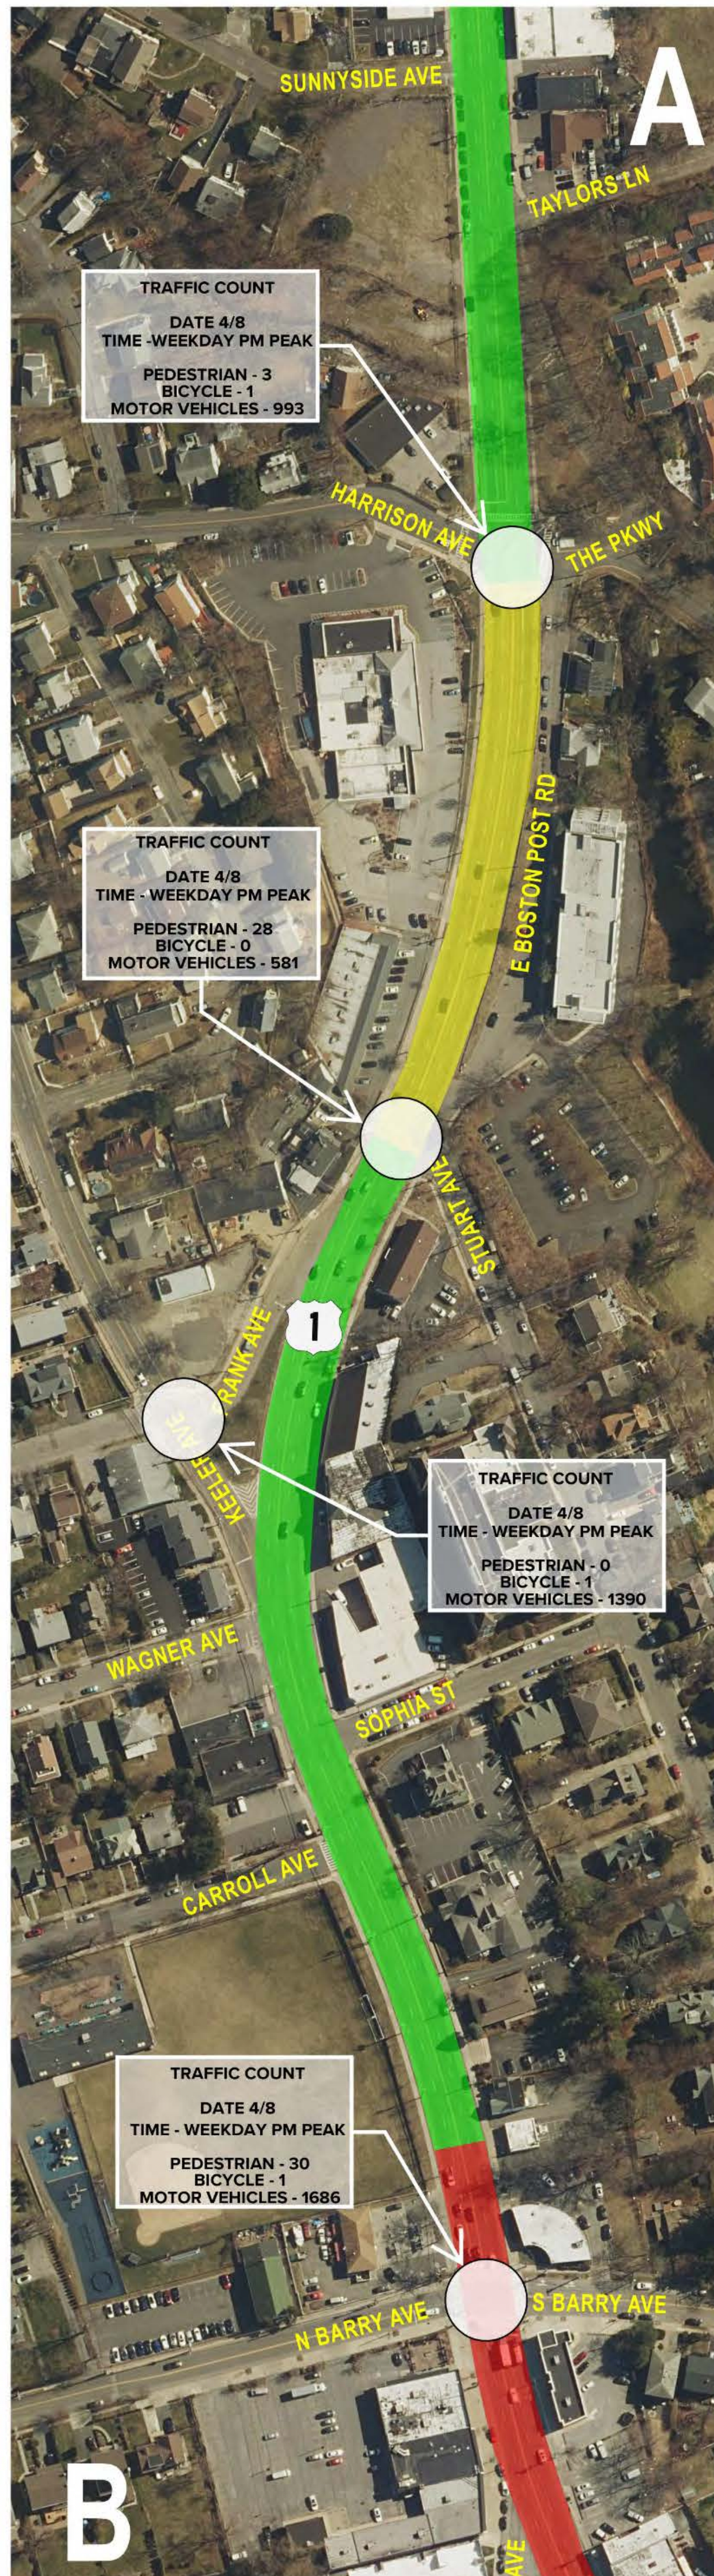

## Schedule

Stakeholder Meeting #1, July 2024  
Stakeholder Meeting #2, November 2024  
Open House #1 - Needs Assessment, June 2025  
Feasible Alternatives Development, Summer 2025  
Open House #2 - Potential Alternatives, Fall 2025  
Design Approval, Late Winter 2026  
Open House #3 - Preferred Alternative, Spring 2026  
Final Design, Summer 2026  
Construction Start TBD
