**Subject:** RE: 2024 Aquatic Permit Receipt Village of Mamaroneck Catch Basins

Thanks James.

I understand the agreement, however VOM cannot be the permit applicant since VOM is not a riparian owner or lessee or an association of such.

WLT can be the permit applicant and for this year we would allow you take as the owner's agent based on the letter you sent us. I would need something in writing from WLT confirming they saw the permit application. Also, other owners of property within or abutting the preserve need to receive a notification letter about the pesticide application. There is a template of this letter with the instructions. I did see that the Town of Rye also owns property.

I did place a call to you. If you have any questions, please contact 845-256-3097. Thanks.

Christopher,

Please see the attached map with circles, and a letter from Westchester Land Trust.

Thank you and have a great weekend.

Thanks James.

If you can forward that letter once you receive from Westchester Land Trust. VOM is listed as the riparian owner on the permit application. It also looks like the Town of Rye may own some property within the preserve.

In regards to the map, the permit application states 8 small ponds. Can you point out the 8 small ponds that may be treated.

Sorry second photo here.

The preserve is owned by the Westchester Land Trust. To my knowledge we have treated this area in agreement with them for over 20 years and have always filed the permits this way for as far back as I can find copies here in our office. If there is something else we need to do, that is not a problem. Please let me know so I can correct anything necessary.

I am also waiting for a letter from Westchester Land Trust regarding this agreement of mosquito treatment which I believe we may have provided once or twice in the past.

Thank you and have a great weekend.

Good morning Christopher,

I have attached a clearer photos of the GIS. The locations are along the areas that say Otter Creek. They appear dried up in these photos.

Hi Karen,

Thanks for the info.

Do you have a map where the waterbodies are clearly recognizable?

Also, about ownership, the village as the applicant is listed as the riparian owner. Is this true? I see the owner of the majority of land as the Westchester Land Trust.

Christopher,

Attached are the updated permits with the attached documents. There are NO maps for the catch basins as every catch basin is in the Village of Mamaroneck.

Hi Karen,

The treatment dates for both permit applications are listed for 2023.

Can you verify ownership of Otter Creek Preserve.

Do you have map of the 8 ponds within Otter Creek Preserve?

Do you have a map of the approx. locations of the catch basins?

Thanks.

I apologize. Attached are both permits that should have been included with the checks. Please let me know if we can expedite this process as the application date for the catch basins is usually the second of week June.
